

Career Day at BGV's Charles F. Hayden School

Milford, CT – The most important thing we can do for students at the Charles F. Hayden School is prepare them for life outside of Boys & Girls Village. That means providing lessons and experiences that stretch beyond the education our talented teachers provide in the classroom.

The Hayden School recently hosted Career Day programs for both our younger and older students, bringing in professionals from a variety of fields, including firefighters, shop owners, a personal trainer, a beautician, and even a college volleyball coach.
